

"Torah Im Derech Eretz"

Phyllis Jowell Jewish Day School have launched the **INTERNATIONAL PRIMARY CURRICULUM (IPC)**

At Phyllis Jowell we are passionate about being innovative and about improving learning, thus enhancing the educational journey of our pupils. Imparting knowledge as well as 21st century skills are pivotal in education. A school should constantly be evaluating and reflecting on their educational offering for all its pupils.

This process will ensure that we offer our children the very best education. This has led us to the implementation of an international curriculum where the focus is on reinforcing essential 21st century skills as well as life skills, focusing not on knowledge based assessments but on skills assessments as the focus point.

Our kodesh offering will be integrated into the international curriculum thereby not compromising the unique and excellent kodesh offering our pupils receive at Phyllis Jowell.
