

The Principal's Message

Welcome to our website!

Phyllis Jowell Jewish Day School is my school of choice. If I were you, and my children were in the Primary and Preschool Phases, this is where I'd place them. Why?

- Our teachers are passionate about and committed to their students and they love them.
- Our class sizes are small and conducive to differentiation and individualisation. Every child is carefully monitored by the teacher and the Learning Team which is headed by our Specific Educational Needs Coordinator (SENCO).
- Our Kodesh and General studies receive fair amounts of dedicated attention and these departments are run effectively by competent staff, and headed superbly by our Campus Rabbi and Heads of Department.
- We afford time for the holistic development of students in our offering.
- The school environment is warm and caring, and the best interests of our students are our primary concern. We are progressive in our approach, yet hold fast to timeless values, beliefs and principles.
- We inculcate love for Torah, Jewish People, Israel AND the wider South African and International Community.
- We keep it real and live by integrity and sincerity in an environment where Hashem reigns supreme.

Please arrange to visit us and see what we're about.

- **Theodore Thomas**
